BERCZY PARK REVITALIZATION

ABOUT THIS PROJECT

- + Shares a unique triangular shaped lot with the iconic flatiron Gooderham Building in the heart of the Old Toronto district.
- + A welcoming public space, the revitalized park takes a whimsical approach to the fountain centerpiece tradition.
- + Two-tiered cast iron fountain, inspired by a late-19th-century design.
- + Features waterworks through hand-painted dog sculptures.
- + Revitalization project, designed by Claude Cormier et Associés, won the Canadian Society of Landscape Architects' 2018 National Award.
- + Engaged as the mechanical, electrical, and lighting consultant for the project.
- + Park is illuminated with low level bollards and light poles inspired by the historic architecture of the surrounding area.
- + Fountain and the Gooderham Building mural are both strategically lit to feature the intricate artistry while enticing pedestrians with an inviting glow.
